

## Free Webinar Series!!

*Come learn all about:*

# Poisonous Plants of Colorado

### Place

Cattleman's Restaurant (at the Sale Barn)  
Burlington Livestock Exchange  
46277 US Hwy 24  
Burlington, CO 80807

### Date

February 6, 2013

### Time

9:00 – 10:00 am

Dr. Tony Knight, CSU Clinic Science Professor, discusses the risks of poisonous plants to common domestic livestock including cattle, sheep and horses. This hour-long video presentation shows very good pictures of poisonous plants with descriptions of symptoms and stressors.

### *Future Webinar Topics Include:*

**Economics of Grazing Management • Forage Grasses and Drought • Livestock Handling • Windbreak Design and Maintenance • Understanding Drought in Colorado**
